8. Comprehension

Answer the following questions after reading the paragraph carefully.

Water comes from many places on Earth. Some sources of water are oceans, rivers, lakes, and streams. Oceans are very large bodies of salt water. Rivers and streams are flowing bodies of fresh water that move from one place to another. Lakes are large areas of still water, and they can be found on land. All of these sources provide water that is important for drinking, bathing, and helping plants and animals.

Questions and Answers:

1. **What are some sources of water?**

Answer: Some sources of water are oceans, rivers, lakes, and streams.

2. **What is an ocean?**

Answer: Oceans are very large bodies of salt water.

3. **What are lakes?**

Answer: Lakes are large areas of still water.

Let's try it!

Rain

Sea

Work it out

I am water. Use me carefully help you with many things.

Think and tell how I am helpful to you.

- We use water for drinking.
- We use water to take bath.
- We use water to wash our hands.
- Plants need water to grow.

Choose the correct option.

1. It is used in drinking, bathing and washing.

Soil	Air	Water
------	-----	--------------

2. It is not a way to purify water.

Boiling	Freezing	Filtering
---------	-----------------	-----------
